

The Collaboration of East Harptree and Ubley Primary Schools

SEND Information Report

2024 -25

East Harptree and Ubley Primary Schools, comprise of two schools on two sites providing education for children aged 4-11. We currently have 4 classes at each school.

At East Harptree and Ubley Primary Schools, we recognise that there are a number of pupils who may have Special Educational Needs and/or Disabilities (SEND), which can make it harder for them to learn than other children of the same age, and for whom specialist intervention and support may be required.

We welcome, value and respect the achievements of all children. We will always listen to and involve parents and children in the planning and review of their provision.

The purpose of this policy / report is to inform parents and carers about how we welcome, support and make effective provision for children with Special Educational Needs and/or Disabilities (SEND).

Please also refer to the LSP SEND Policy.

How are our schools accessible to pupils with SEND?

Our site at Ubley has partial wheelchair access and a disabled toilet facility. Our site at East Harptree currently has limited wheelchair access.

Our schools are well resourced with facilities which include:

- Well-equipped classrooms
- Indoor and outdoor learning areas, play areas and quiet areas
- Spaces for meeting with families and professionals

We ensure that wherever possible equipment provided is accessible for ALL children. Specialist equipment can be ordered for individual pupils if required.

We always try to make alternative provision to enable ALL pupils to access clubs, school trips and residential visits. Please also refer to the School Accessibility Plan.

What does 'SEND' mean?

SEND = Special Educational Needs and/or Disabilities.

SEND covers a range of different needs, including learning, speech and language, communication, social, emotional, mental health, motor skills, sensory, physical.

Some children may have one specific difficulty or disability, a combination of more than one, or a range of needs. These difficulties can make it harder for them to learn than other children of the same age.

“A child has a special educational need if they have a learning difficulty or disability which requires special educational provision to be made which is different from or additional to that normally available to pupils of the same age.” SEND Code of practice 2014

There are 4 broad areas of need, as defined in the SEND Code of Practice 2014 :-

Communication and interaction

- Speech, language and communication needs (SLCN)
- Autistic spectrum disorders (ASD) including Asperger’s Syndrome and Autism

Cognition and learning

- Specific learning difficulties (SpLD), including a range of conditions such as ...
- Dyslexia
- Dyscalculia
- Dyspraxia
- Moderate learning difficulties (MLD)
- Severe learning difficulties (SLD)
- Profound and multiple learning difficulties (PMLD)

Social, emotional and mental health difficulties

This includes disorders such as ...

- Attention deficit disorder (ADD)
- Attention deficit hyperactive disorder (ADHD)
- Attachment disorder (AD)

Sensory and/or physical needs

- Vision impairment (VI)
- Hearing impairment (HI)
- A multi-sensory impairment (MSI)
- A physical disability (PD)

How does our school make provision for children with SEND?

We follow the full EYFS framework and the National Curriculum. Through this we provide exciting, purposeful learning which is designed to meet the individual needs, levels and interests of all children in a safe, stimulating and nurturing environment. We use a number of individual and group interventions to support learning.

In addition to the learning provision, there is also support available for children who have social or emotional needs or difficulties. Staff may work with individuals or groups using resources to help explore emotions, worries, friendships and social skills.

Children with SEND are supported in a variety of ways, depending on their needs. Our staff are experienced in dealing with a range of SEND and where training is needed it is provided through school INSET or sought externally.

As an inclusive collaboration, we do not seek to closely define the special educational needs for which we will make provision. Historically we have had success in providing for a wide range of different needs, when budget, resources and availability of expertise has allowed. This has included pupils with :-

- ADHD
- Autistic Spectrum Disorders (ASD)
- Attachment Disorder
- Cerebral Palsy
- Dyslexia
- Dyscalculia
- Dyspraxia
- Hearing Impairment

In the year 2023-24 we have made provision across the Collaboration for children with ...

- Moderate Learning Difficulties –
- Specific Learning Difficulties (including Dyslexia / Dyscalculia)
- Speech, Language and Communication Needs (including ASD)
- Social, Emotional and Mental Health Needs (including ADHD)
- Sensory Difficulties
- **How is a specific need identified?**

We constantly monitor children's progress to ensure we are meeting their needs.

We do this through :-

- Daily observations, feedback and conversations with children
- Termly assessment of children's academic levels in reading, writing and mathematics
- Regular reviews of provision and Support Plans for children with SEND
- The Annual Review of the Education Health and Care Plan (EHCP)

The first step in meeting the individual needs of children is through Quality First Teaching within the classroom. High quality teaching is adapted for individual pupils within each class and Universal provision will be used to support the children.

The Class Teacher is responsible for the progress of each child in the class and will monitor their progress using a range of assessment methods.

If a pupil is not making the required progress, this will be discussed with the Headteacher and the SENDCo. Some children are not identified as having SEND but may still have short term extra help to accelerate progress.

Some children will have more difficulties and they will need longer term SEND Support Plans. This is recorded on the school's SEND register, after consultation with the staff, parents and child.

How is extra support provided?

If any educational needs are identified, our SENDCo and your child's Class Teacher will plan how to provide support for your child, with the involvement of yourself and also outside agencies as appropriate.

We will take a graduated 'Assess-Plan-Do-Review' approach to supporting them. We will offer extra provision and/or resources within the classroom, and will monitor this. We may also plan targeted interventions which would be carried out by Class Teachers and/or Teaching Assistants.

The support in place will be detailed on an individual SEND Support Plan/My Plan. These Support Plans will be reviewed regularly, at least termly (3 times a year), in consultation with staff, parents and the child.

If a child has an Education Health and Care Plan (EHCP), more in-depth Annual Reviews are also held once a year, involving other professionals wherever possible.

Whatever we decide to do, you and your child will be central to the process.

Who is responsible for the support my child receives?

Our fully qualified staff comprises Head Teacher, SENDCo, Class Teachers, Class Teaching Assistants and 1:1 Teaching Assistants.

All staff share responsibility for supporting our children with SEND, although roles vary.

Class Teachers :

Each Class Teacher is responsible for all the needs and the progress of all the children within their class. Our Class Teachers seek to provide high quality education for all children in their care, including managing support within their class. Children may be given support in different ways, depending on their needs. Some children's needs will be met in class by adapted work or targeted group work with an adult. Some children's needs will be met through an intervention programme, where children work with an adult out of class on a specific area of learning. At times some children may need a higher level of 1:1 support to help them access their learning.

Support Staff :

Our Teaching Assistants provide in-class support, as directed by the Class Teacher, which may include group interventions or 1:1 activities. Where there are more complex needs, children may

have a personalised curriculum/timetable which suits their learning needs and/or have a designated Teaching Assistant working with them for some or all of their time in school.

SENDCo (Special Educational Needs and Disabilities Coordinator) :

Our SENDCo is responsible for overseeing the provision across the school for all children with SEND. This includes reviewing support strategies with teaching and support staff, leading in-school training, and meeting with parents. When advice from outside agencies is needed, she will make referrals to and arrange visits from other education and/or health professionals. For children with more complex needs, she oversees the requirements of Education Health and Care Plans (EHCPs), arranges Annual Review meetings and makes applications for Top-Up Funding (TUF).

Governors:

Our Governing Body also have a responsibility to ensure and monitor SEND provision.

Our SEND Governor is Nick Alexander.

How are parents of children with SEND consulted about and involved in the education of their children?

We actively encourage a strong relationship between home and school and involve parents/carers as much as we can. You know your child better than anyone else, and it is important that we all work together to support them.

All parents are consulted through discussions with the Class Teacher in the first instance and through Parent Consultations. Review discussions of SEND Support Plans will usually take place in Terms 1, 3 and 5 - these may take place within Parent Consultations or parents can arrange to meet with the Class Teacher and/or the SENDCo at another time.

A separate Annual Review meeting is held for parents of children with an Education Health Care Plan.

SEND support plans were updated by Class Teachers in the Autumn, Spring and Summer Terms, and shared with parents either online communication or face to face. (The Class Teachers and SENDCo continued to monitor provision for all children with SEND, whether in school or at home.)

How are children with SEND consulted about and involved in their education?

Children who have a SEND Support Plan will be consulted through the year by their Class Teacher, TA or the SENDCo, and this will be recorded in their Support Plan and/or a One Page Profile.

Children who have an Annual Review will be invited to share their views, either before or at the meeting.

How are funding and resources secured, to support children with SEND?

The school has a specific SEND budget which can be used to purchase equipment for children with additional needs if the resources are not already in school.

SEND funding is also used for additional staffing and buying in agency support from other professionals.

For children who have an Education Health and Care Plan (EHCP), the school will request Top-Up Funding to assist with making provision for their more complex needs including:

Online interventions

- Nessy Reading & Spelling (learning – literacy)
- Nessy Fingers (physical – typing skills)

In-class resources

- Resources to support learning – books for struggling readers, reading overlays, exercise books with coloured paper ...
- Resources to support social / emotional needs
- Resources to support physical / sensory needs – wobble cushions, fiddle objects, ear defenders, pencil grips,
- Books for reference for staff (range of needs)
- Books to share with children (range of needs)

Agency support from other professionals;

- Speech & Language Therapist (through B&NES Health)
- Advisory SEND Leader (through our LSP Academy Trust)
- Educational Psychologist

How does the school involve other professional bodies, including health, social care, support agencies and voluntary organisations?

With some specific needs additional advice may be sought from a range of external educational or health professionals. Where there are more complex needs, children may have a number of outside professionals, or more specific specialists, involved.

Parents are always consulted to see if they agree to the school seeking advice and/or acquiring additional support. The SENDCo can then make a referral if school and parents agree. Parents may be invited to meet these professionals or speak to them on the phone, either before or after their visit. Targets set or reports written following these visits will be shared with parents and relevant staff. We currently have access to the following :-

Education

- B&NES SEN Team - for children with or needing an EHCP (or N Somerset / Bristol SEN Teams for children living in N Somerset / Bristol)
- B&NES Educational Psychology Service – for children needing an EHC assessment

- Educational Psychology Service
- Advisory Teacher (- bought in through our LSP Academy Trust)
- ASD Support Service, Fosseway

Health (- dependant on GP address)

- Speech & Language Therapists (- clinics for speech sound difficulties)
- Speech & Language Therapists (- school visits for language difficulties, bought in through B&NES SLIP Team) • Occupational Therapy
- Physiotherapy
- Community Paediatricians
- Hearing Support Service
- School Nurse

The following professionals sometimes visit out schools

Speech & Language Therapists –

(Occupational Therapists -

- School Nurse
- Educational Psychologist

Who should I contact if I have any questions regarding SEND?

If you have any worries or concerns about your child, the first person you should speak to should be

their Class Teacher. Ian Harvey is available by appointment. Contact the school office to make an appointment. Address : (East Harptree); office@eastharptreeprimary.org.uk or phone; 01761221492 or (Ubley) office@ubley.school or 01761462654

What are the arrangements made by the governing body relating to the treatment of complaints from parents of children with SEND, concerning the provision made at the school?

We strive to build positive relationships with all parents and carers - however, from time to time parents, carers or others connected with our school may have a concern they need to raise.

If a parent has a concern or complaint to make it should, be directed to the Headteacher, Mr Harvey, either verbally or in writing.

If the parent is not happy with the outcome of this, we have a clear complaints policy and procedures which aims to resolve any issues quickly and fully. Parents should follow the guidance outlined in the Complaints Policy which is available on our school website or by request from the school office.
